

PROFESSIONAL SUMMARY

- Proficient in front-end technologies such as HTML, CSS, JavaScript, Angular, and React.js, with a solid grasp of modern UI/UX principles. Demonstrated expertise through successful projects like a Subscription-Based Learning platform and an HR management system, showcasing strong problem-solving abilities and development skills. Committed to creating scalable, user-friendly applications and continuously enhancing knowledge by staying abreast of the latest web technologies. Seeking a challenging role to leverage my skills in creating scalable, user-friendly applications and continuously enhancing knowledge by staying abreast of the latest web technologies.

PROFESSIONAL EXPERIENCE : Asan Tech Cube Solution Private Limited, Pune  
December 2023 – Present

Employee Management System

- Designed and developed HR management modules, including dashboard, leave management, resignations, and department tracking.
- Built dynamic functionalities to enhance user interaction and ensured a seamless, responsive UI design.
- Integrated Firebase Authentication for secure login.
- Utilized Material UI & CSS to create a modern, intuitive, and user-friendly interface.
- Leveraged React Hooks for state management, improving performance and efficient data handling.
- Implemented form validation and error handling to ensure data accuracy and prevent incorrect inputs.

Subscription Base Learning

- Developed a web-based e-learning platform enabling users to subscribe to courses and access educational content.
- Implemented secure authentication, subscription management, and course enrollment functionalities for learners.
- Designed and developed a mobile-responsive UI using Material UI & CSS, ensuring cross-device compatibility.
- Enabled course enrollment allowing users to subscribe based on different plans.
- Integrated Firebase Authentication for secure login and user management.
- Implemented CRUD operations (Create, Read, Update, Delete) to manage users, courses, and subscriptions.
- Integrated Razorpay payment gateway for seamless subscription-based payments and transaction processing.
- Utilized React Hooks & Context API for structured state management and efficient data handling.
- Designed and implemented a user profile page displaying username, email, and enrolled courses.
- Enabled users to update personal details and track their subscription status from the profile section.

Personal Portfolio

- Developed a fully responsive portfolio website using React js .
- Implemented smooth animations and styling while ensuring accessibility best practices.
- Optimized performance and responsiveness, ensuring seamless user experience across devices.
- Integrated third-party libraries, such as Font Awesome for icons, to enhance UI aesthetics.
- Added a resume download feature, enabling users to download a PDF version with a single click.
- Added interactive social media links with hover effects for GitHub, LinkedIn
